EDUCATION

- **J.C. Bose University, YMCA** Faridabad, Haryana
B-Tech in Information Technology; GPA: 8.01
Sep. 2021 – Aug. 2024
- **Savita Modern High School** Sonapat, Haryana
Matriculation; Percentage: 92.3
Mar. 2017 – July. 2018

EXPERIENCE

- **TechCiti Software Consulting Pvt. Ltd.** Bengaluru, Karnataka
MERN Stack Developer Intern
Jan 2024 - July 2024
 - **StudyNotion:** An interactive learning platform providing an engaging online environment for students.
 - * Creates a comprehensive and interactive learning experience for students.
 - * Facilitates course tracking, allowing students to monitor their progress and stay on track with their learning goals.
 - * Features: Enables students and educators to collaborate through live video sessions.
 - * Technology Used: MongoDB, Express.js, React, Node.js, enabling a full-stack development approach.

PROJECTS

- **JobBoard:** A job listing platform where users can search for job openings, apply for positions, and manage their applications.
 - * Developed a job listing platform that connects job seekers with potential employers.
 - * Implemented key features such as job search filters, user profiles, and application tracking.
 - * Technology Stack: MongoDB, Express.js, React, Node.js.
- **RecipeHub:** A recipe management system where users can browse, save, and share recipes.
 - * Centralizes various recipes in one place for easy access.
 - * Features: Search functionality, recipe sharing, rating.
 - * Technology Stack: MongoDB, Express.js, React, Node.js.
- **Movie Review Platform:** A platform where users can review movies, rate them, and discuss with other users.
 - * Developed a platform for users to review, rate, and discuss movies.
 - * Integrated with external movie databases and implemented a recommendation engine based on user preferences.
 - * Key Features: User authentication, movie database integration, reviews and ratings, recommendation engine, and discussion forums.
 - * Technology Stack: MongoDB, Express.js, React, Node.js.

SKILLS

- **Web Technologies:** React, Node.js, Express.js, MongoDB, Tailwind, HTML, CSS
- **Languages:** C++, JavaScript
- **Course Work:** Data Structure & Algorithm, OOPs, DBMS, SQL, OS
- **Data Analysis:** NumPy, Pandas, Matplotlib
- **Soft Skills:** Leadership, Public Speaking, Time Management, Friendly

COURSES

- **Data Structure & Algorithms:** Completed coursework and practical applications in data structures and algorithms.
- **Web Development:** Studied and built projects using modern web technologies including React, Node.js, and Express.js.
- **Programming Practice:** Solved 500+ programming problems across various platforms to enhance problem-solving skills.
